

Carrington Specialty Products' Cross-linked Polyethylene material (CI-7), Neoprene-blend material (4116), and EPDM materials (4114 and 4215) meet the following flammability spec:

MVSS302

Federal Motor Vehicle Safety Standard 302 measures flammability of a material. The standard requires that a material shall not burn or propagate a flame across its surface, at a rate of more than 4" per minute.
